

Program of the seminar:

Experience with Finnish Education System

organized by

Embassy of Finland

*on 28 November 2019 at 1 PM
European House Bratislava*

The main goal of the seminar is to introduce Finnish Education System and explain what makes the system unique. The term "Finnish Education System" is widely used in media. It is described and known as a first-rate system with very good results in PISA tests. Do you know how it works and what education means for Finnish society? Do teachers in Finland have some special skills? We would like to answer these questions through concrete examples.
